To Whom it May Concern,

It is my pleasure to recommend Mr. Ronel De Jesus for employment with your organization. He showed exemplary knowledge on Software Engineer/ Web & App Developer with regard to his course, BS Computer Engineering during the time that he has worked in my company. He was in charge of front end and searching resources, planning and developing software solutions and web applications, supporting and maintaining the company's websites and digital products.

I have been consistently impressed with Mr. Ronel De Jesus attitude and productivity. He has excellent abilities, can relate well with everyone and can do an output with minimal supervision. During the time that he was working in the Software Engineer/ Web & App Developer department, he showed professionalism, respect, cooperation and teamwork.

I believe that Ronel De Jesus would be a huge contribution to your organization and I am highly recommending him for a position with your organization. You can reach me out on telegram, [Telegram: Contact @MsGraceBH](https://t.me/MsGraceBH). Thank you very much.

Respectfully yours,
